

Logico EDI

Appendix A

Asset Type (Equipment) Descriptions and EDI Codes

The following list of EDI codes will be used when Logico transmits a Motor Carrier Load Tender (EDI 204) in the N7 11. This list replaces the standard ANSI x12, element 40 codes.

When transmitting EDI 214 and/or EDI 210's back to Logico, if you are including equipment description codes (Example: EDI 214 v6010 - AT7 Loop – MS2 Segment – Element 40), then you must utilize these same code
